Ozzy

POUF

Ozzy pouf is a sculptural furnishing accessory carved from a block of marble. Seat and legs are shaped in material continuity, creating a compact volume where shape, structure and texture come together in harmony.

Three elements support the central part and define the base. The continuity of marble makes the construction immediately legible and enhances the stone's veining, colours and natural variations.

Despite its small dimensions, Ozzy has a harmonious appearance and can be used as an additional seat, decorative element or small furniture accessory.

Each marble block has different characteristics, making every piece naturally unique. Ozzy interprets collectible design through geometric simplicity combined with the expressive strength of marble.

Handmade in Italy, Ozzy brings marble craftsmanship into relation with a sculptural shape and refined design.
