Ovoo

TABLE

Ovoo is a HESSENTIA table inspired by Mongolia's ritual landscapes and the ancient tradition of stone cairns, built on mountain peaks as symbolic markers and points of reference. The marble version interprets the table as a sculptural, monolithic presence.

Thick marble takes centre stage: veining, colours and surface variations create a unique identity, making each piece one of a kind. Bronze artistic metal casting elements, enhanced by a textured patina, introduce a warm, deep contrast, enriching the dialogue between the mineral surface and the craftsmanship of the cast legs.

This variant shows Ovoo's most expressive, architectural character. The continuity of marble gives strength and solidity, while bronze artistic metal casting adds intensity and character. Each table becomes a unique piece in which material, memory and contemporary Made in Italy design meet.The Ovoo table tells stories of faraway lands, belonging to the shamanic cult typical of Mongolia. The inspiration of this collection is the concept of "ovoo": the piles of stones used as reference points at the top of the mountains, were in fact the inspiration for the overlapping of Ceppo romano marble components combined with elements in bronze casting.

HESSENTIA can customize this piece to suit your project needs. Some limitations apply.
