

Ben

TABLE

Generated: 28/06/2026

The Ben table stands out for its distinctive textural identity: the entire surface is covered in hand-woven jute, a material that lends each piece a unique tactile quality and an authentic soul. The U-shaped legs support the tabletop, which is divided into three or more sections depending on its size, creating an elegant visual rhythm.

HESENTIA can customize this piece to suit your project needs. Some limitations apply.
