Gio

SOFA

Within the HESSENTIA world, Gio is a sofa defined by sinuous, decisive shapes, generous volumes and a profile capable of creating a vigorous presence within the living area. The continuity of the curves softens the perception of the structure without reducing its character, creating a balance between formal energy and comfort.

The proportions of the sofa follow the development of the seating through a fluid design in which the back and armrests participate in the construction of a continuous silhouette. Gio is conceived to transform the living area into a welcoming, contemporary ambience while maintaining a clearly recognizable look.

Available in different sizes and upholstered in leather or fabric, this sofa can adapt its presence to living areas of varying dimensions. Leather or fabric upholstery plays an important role in the perception of the shapes, following the sinuous movement of the volumes without interruption.

Handmade in Italy, Gio interprets contemporary seating through decisive curves, generous proportions and continuity of volume, creating a dynamic presence and becoming a protagonist within the interior.
