Lineup

COFFEE TABLE

The all-metal version of the Lineup coffee table expresses the value of artisanal craftsmanship through its carefully handcrafted surface. Its geometric, rigorous structure shows artistic engraving inspired by the sensitivity of Italian high jewellery.

The metal surface captures light and returns it through changing reflections, creating a simple yet strong presence. Metal becomes a decorative material as well as a structure: each engraving creates rhythm, depth and visual vibration, enhancing the product's handcrafted character.

Available in different sizes, Lineup can be used individually or with other elements in the collection. Within HESSENTIA's design language, it is a sculptural, sophisticated coffee table combining geometry, light and Handmade in Italy artistic craftsmanship.
