

The uniqueness of rectangular tables Nova is represented by the double brass base that envelops the marble slabs like a ribbon enhancing the natural veins of the stone. The metal parts, that are shaped in a very precious way, are proposed both in shiny and matt finishes and some of them are decorated by hand with a refined three-dimensional effect. Besides the rectangular table exists also the round version available in different sizes.

HESSENTIA can customize this piece to suit your project needs. Some limitations apply.
