Joss

COFFEE TABLE

Joss coffee table, made of marble with artistic brass casting details, combines the expressive strength of marble with the texture of hand-worked metal. Natural stone veining engages with the patina-effect finish on artistic casting, creating a refined balance of texture, colour and depth.

The two materials become the focal point of the entire design, where the dialogue between marble and casting takes shape naturally, transforming a technical connection into a distinctive design feature.

Within HESSENTIA's world, Joss expresses Handmade in Italy sensitivity through the meeting of distinctive materials and craftsmanship, creating an elegant, timeless coffee table.
