Concave

COFFEE TABLE

Lacquered Concave coffee table expresses the collection's sculptural character through colour, volume and surface. Several three-dimensional facets run across its round, compact shape, creating a continuous rhythm and a dynamic presence in the living area.

The lacquered finish, available in glossy or matt versions, enhances the geometry. Stronger colours give Concave a bold, striking character; softer finishes create an elegant, restrained accent alongside sofas and armchairs. The top is available in lacquered wood or natural marble.

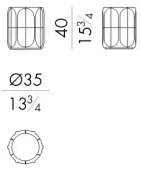

Available in different sizes, Concave can be used individually or with other elements in the collection. Within HESSENTIA's design language, it is a decorative, contemporary coffee table combining colour strength, sculptural shape and artisanal care in finishing.
