Nora

NIGHT TABLE

Nora night table is a bedroom accessory characterized by the dialogue between square-weave Vienna straw and natural marble. It belongs to Nora collection, which also includes coordinated coffee tables and storage units.

The base is entirely hand-covered in Vienna straw. The geometric weave creates a filtering, tactile surface which introduces visual lightness to the overall volume.

A single vertical element connects the base to the drawer and top. This structure creates an asymmetrical composition in which the different parts appear to remain in balance.

The marble top highlights natural veining and chromatic variations. The contrast between the regularity of the woven cane and the uniqueness of the stone represents the main expressive element of the night table.

Nora night table can be placed beside upholstered beds with soft shapes or coordinated with the other elements in the same collection.

Handmade in Italy, Nora combines artisanal weaving, natural stone and structural balance.
