Dot

POUF

The Dot pouf is a contemporary furnishing accessory entirely upholstered in capitonné, one of the most distinctive techniques in traditional upholstery craftsmanship.

The regular sequence of tufted details and indentations shapes the entire volume, creating a three-dimensional surface that emphasizes the pouf's soft, rounded forms.

Rather than being used as an isolated decorative detail, the capitonné technique defines the overall character of the piece. The rhythm of the upholstery creates variations in light and depth, highlighting the tailored craftsmanship of the covering.

The Dot pouf is available in leather or fabric and can also be customized in vibrant colours that further accentuate the geometric pattern of its surface.

The piece can be used as an occasional seat or as a furnishing accessory for living areas and bedrooms.

Handmade in Italy, the Dot pouf combines capitonné craftsmanship, comfort and sartorial precision in a distinctive contemporary design.
