Dorado

COFFEE TABLE

Generated: 03/11/2026

Dorado coffee table born from artistic brass casting, interpreting metal as a refined, luminous and deeply expressive material. The surface alternates between smoother and more textured areas, balancing a carefully designed, precise shape with a finish that retains the value of handcraftsmanship.

Sand casting reveals variations, visual vibrations and subtle irregularities that make each piece unique. The brass finish enhances its relationship with light, creating a warm, sculptural and changing appearance.

Available in two different sizes and also suitable for covered, protected outdoor ambiences, Dorado can be used individually or as a pair. Within HESSENTIA's world, its material and craftsmanship make it an iconic coffee table combining function, metal and artistic handwork.

If the product is intended for **outdoor use**, it should be used exclusively in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.
To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.
Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.
