Ibris

COFFEE TABLE

Ibris transforms the simplicity of concrete into an expressive element through a smooth surface enriched with white Carrara marble chips. Its pure, round shape highlights the character of the material, creating a simple, tactile and visually strong presence.

The top reveals a richly varied texture in which concrete and marble chips create depth, tonal variations and subtle irregularities. Coloured finishes broaden its identity, allowing Ibris to sit in balance in living ambiences and covered, protected outdoor spaces.

Available in different sizes and heights, Ibris can be used individually or with other elements in the collection. Within HESSENTIA's design language, it is a compact, sculptural coffee table combining material, colour and contemporary Handmade in Italy sensitivity.

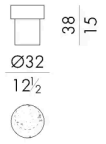

The **Hessentia Outdoor collection** is designed and intended exclusively for use in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.
To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.
Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.
