Cadrega

CHAIR

Generated: 07/10/2026

Cadrega, undisputed star of the EXPERIENTIA event during the Design Week 2024, is a tribute to the city of Milan. Cadrega is the expression of a minimalist design, entirely made of cast bronze. Its surface is characterised by a polychrome effect given by the visible welding, which emphasises the contemporary aesthetics of the seat by creating a game of visual and tactile contrasts. The artistic casting process with which Cadrega is made combines the ancient art of sand casting with the new language of design. Even today, in fact, sophisticated manual processes are used to shape the material and transform it from a raw material into a unique work of art.

If the product is intended for **outdoor use**, it should be used exclusively in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.
To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.
Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.

Dimensions
