Leaf

POUF

Generated: 04/11/2026

Leaf pouf is a contemporary furniture accessory with organic shapes, defined by a rounded volume and tailoring craftsmanship that wraps around its entire surface. It belongs to Leaf collection, which also includes a coordinated small armchair and bed.

Leaf is completely upholstered in embroidered leather or fabric. The Wave-patterned embroidery, inspired by the natural veins of a leaf, wrap the whole structure, creating tactile depth, variations in light and a continuous rhythm. The embroidery shapes the volume and represent the strong identity of the pouf, beyond its decorative function. Compact proportions make it suitable as a seat, footrest or accessory in living and sleeping areas.

Leaf can be coordinated with the small armchair and bed from the same collection, creating continuity between shapes, decorative embroidery and three

Handmade in Italy, Leaf brings together minimal lines, comfort and precision of embroidery.
