Hug
BENCH

Hug bench is an upholstered seat designed mainly for night areas. It belongs to Hug collection, which includes coordinated sofas, armchairs, beds and poufs.

The seat is completely upholstered with a soft, three-dimensional embroidery with a diamond pattern. This craftsmanship shapes the bench, creates tactile depth and reveals tailoring precision.

Hug is available in leather or fabric and can be placed at the foot of a bed, inside a walk-in closet or as an additional seat in other contemporary ambiences.

It can be marched with other elements in Hug collection, creating continuity between shapes, upholstery and craftsmanship.

Handmade in Italy, Hug interprets the furnishing accessory through comfort, three-dimensional embroidery and manufacturing precision.
