

In the heart of every room, the Snap bed emerges as a bold creation that challenges the conventional canons of design. It finds its maximum expression when positioned at the center of the ambiance, where its distinctive shape becomes the undisputed protagonist. The round structure stretches around the mattress ending in a sinuous arch in the headboard. It can be upholstered entirely in high quality fabric or leather. The upholstery without visible stitching adds a touch of elegance and refinement. It is possible to complete the bed with Snap night tables, whose shape fits perfectly with the curve of the headboard, blending harmoniously together.
