Hug

POUF

The Hug pouf is a compact furnishing accessory characterized by a voluminous seat and a small backrest. Part of the Hug collection, it reflects the collection's enveloping shapes and refined tailoring details.

The small backrest provides support without transforming the pouf into a traditional armchair. The design maintains a compact and versatile silhouette, making it suitable as an occasional seat or a coordinated furnishing accessory.

The Hug pouf is available with smooth leather or fabric upholstery, as well as in a version featuring raised diamond-pattern embroidery. This decorative technique creates tactile depth and establishes a visual connection with the other pieces in the Hug collection.

The pouf can be placed in living areas, bedrooms or walk-in closets and coordinated with other pieces from the Hug collection.

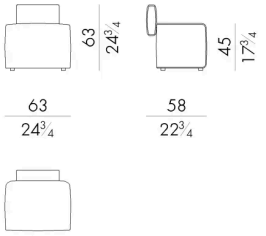

Handmade in Italy, the Hug pouf combines comfort, generous volumes and sartorial precision in a distinctive contemporary design.
