Concave

COFFEE TABLE

Concave in solid wood interprets wood through a round, compact and sculptural shape. Several three-dimensional facets create a continuous visual rhythm across the coffee table structure, creating a dynamic, recognisable presence in the living area.

The oak version expresses a warmer, more natural sensitivity, revealing the strength of the material through grain, tones and natural wood variations. The craftsmanship enhances the geometry, balancing precision of form with tactile perception. The marble top adds natural depth and decorative value in harmony with the structure.

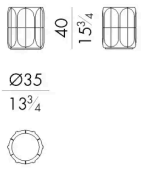

Available in different sizes, Concave can be used individually or with other elements of the collection. Within HESSENTIA's design language, it is a minimal, decorative coffee table combining solid wood, marble and Handmade in Italy tradition.
