Overlap

COFFEE TABLE

Available in different sizes and heights, artistic metal casting Overlap transforms metal into a sculptural, strong and deeply textured surface. The top with rounded corners and four distinctive cut-outs retains a recognisable geometry, while casting gives the surface visual variations, reflections and subtle irregularities.

Sand casting makes each piece unique, revealing traces of craftsmanship and a texture quality that enhances the material. Overlap thus becomes a functional, artistic piece suited to both indoor and outdoor settings.

Within HESSENTIA's design language, this version expresses the strength of artistic metal casting through a compact, refined coffee table with a distinct material character.

If the product is intended for **outdoor use**, it should be used exclusively in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.
To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.
Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.
