

The armchair Oliver is a piece that recalls the style of the 50s. The whole seat is wrapped in a diamond-shaped quilting that gives the surfaces a three-dimensional light-and-dark effect. The structure supporting the seat is made up of two metal ribbons which, embellished by a hand-made sculptural work, create a pleasant geometric effect. This armchair is customizable with upholstery in fabric, leather or “Mongolia fur” as well as in the chromatic metal finishes.
