

The uniqueness of round tables Nova is represented by the brass base that envelops the marble slabs like a ribbon, enhancing the natural veins of the stone. The metal parts, that are shaped in a very precious way, are proposed both in shiny and matt finishes and some of them are decorated by hand with a refined three-dimensional effect. Besides the round table, that can be selected with lazy susan, exists also the rectangular version.

HESENTIA can customize this piece to suit your project needs. Some limitations apply.
