Drop

COFFEE TABLE

Available in different sizes and heights, Drop interprets artistic bronze casting through a soft, recognisable teardrop shape. The metal retains the memory of handcraftsmanship, with variations and reflections that give each piece a different appearance.

Three conical legs support the top with balance and lightness, creating a sculptural yet functional presence. Its organic shape allows Drop to sit naturally in living ambiences and covered, protected outdoor spaces.

Within HESSENTIA's design language, Drop is a simple yet strong coffee table combining bronze, artistic casting and contemporary sensitivity. This refined collection of coffee tables brings the strength of material and the uniqueness of Handmade in Italy craftsmanship into the space.

If the product is intended for **outdoor use**, it should be used exclusively in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.
To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.
Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.
