

The strong personality of HESSENTIA is clearly visible in KIRO sofa, realized both with and without armrest. The base is available in different options such as open-pore painted ash wood or ziricote wood. KIRO is characterized by the milled structure that makes it a bold sofa, suitable to furnish the centre of a room or to be placed against a wall. Its vigorous shape makes it the main character of the ambience in which it is placed, adapting very well to the furniture that surround it.
