Euphoria

ARMCHAIR

Generated: 08/11/2026

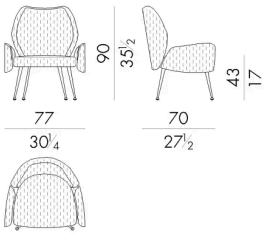

Euphoria armchair represents a perfect example of Fifties style: the backside and armrests that slightly touch the seat, convey a sense of lightness to the entire structure. Available in both leather and fabric, it also comes with a ‘dot’ pattern embroidery, which enhances the three-dimensional effect. In the version with Mongolia fur upholstery, it becomes the undisputed star of the space. The metal finish on the legs can be selected among different options.
