

Itaca pouf was created to match with the armchair from the same collection.

The structure is made of multilayer wooden rods arranged like slats, on which rests a cushion with an enveloping design.

Designed to enhance panoramic terraces, large verandas and boats, it can also be used indoor.

We recommend the use of the Safe Cover, ideal for maintaining the quality of the materials.

The **Hessentia Outdoor collection** is designed and intended exclusively for use in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.

To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.

Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.
