

Inspired by nature, Kumo monolithic coffee tables are conceived like real sculptures of modern art. Their organic shape, fluid and natural, allows to create various combinations, making them ideal in any context, especially outdoors, in both contract and residential settings.

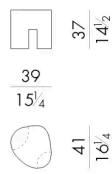

Each coffee table is made of a single-material, with a visually porous surface that enhances its unique, tactile texture. Kumo coffee tables are available in different sizes and colours.

# Dimensions

**KUMO . 4 0 4 0**

Coffee table
