Novabed

BED

Generated: 24/11/2026

Within the HESSENTIA world, Novabed is a contemporary upholstered bed characterized by vertical embroidery, parallel stitching and metal inserts at the ends of the headboard. The bed belongs to Nova collection, which also includes a bench, night tables, a vanity desk, coffee tables, a console and coordinated lighting pieces.

The headboard and bed frame can be upholstered in leather or fabric. The vertical workmanship breaks up the surface with a regular rhythm, alternating embroidered areas and stitched lines.

The tailored pattern accentuates the height of the headboard and creates an ordered, architectural perception. The succession of lines generates depth and makes the structure recognizable even in restrained colour configurations.

Metal inserts at both sides of the headboard evoke the language of the other products in Nova collection. The metal detail introduces a precise contrast with the softness of the upholstery and strengthens continuity across the different pieces.

Novabed is available with either a standard headboard or an extended headboard designed to accommodate the night tables. The second configuration allows the bedroom wall to be arranged through a wider, more cohesive composition.

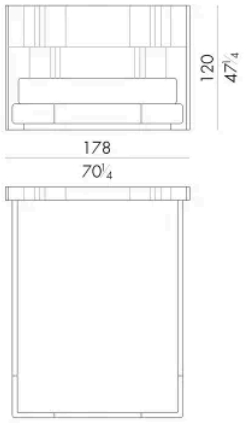

Leather or fabric upholstery allows to customise the relationship between embroidery, colour and surface. Leather makes the stitching more clearly visible, while fabric can emphasize the softness of the headboard.

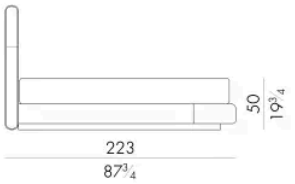

Handmade in Italy, Novabed interprets the sleeping area through tailoring craftsmanship, metal details and continuity with Nova collection.

Dimensions
