Orion

COFFEE TABLE

Orion interprets HESSENTIA's outdoor design through a simple, light and contemporary crescent shape. Made of aluminium with a hand-decorated surface, it is designed for covered, protected outdoor spaces while retaining a refined presence in indoor living ambiences.

Its curved geometry allows fluid compositions, used individually or with other elements in the collection. The open, dynamic shape introduces movement into the space, complementing outdoor seating, lounge and relaxation areas with balance and natural ease.

Paired with Ibris tables, Orion helps to create more complex settings in which materials, heights and proportions complement one another. Within HESSENTIA's design language, it is a versatile, light table combining functionality, outdoor design and contemporary Handmade in Italy sensitivity.

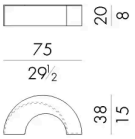

The **Hessentia Outdoor collection** is designed and intended exclusively for use in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.
To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.
Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.
