Miller

COFFEE TABLE

Miller coffee table with marble top retains the collection’s iconic base composed of slender metal rods placed side by side. This light, rhythmic vertical motif supports the top, preserving the recognisable character of an iconic HESSENTIA product collection.

The marble top, available in a wide range of options, makes the natural stone the main character, enhancing its veining, depth and uniqueness. The rounded edge gives it visual lightness, creating a refined dialogue between expressive marble and the elegance of the metal structure.

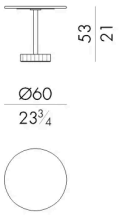

Available in different sizes and heights, marble Miller is suitable to be used individually or with other elements in the collection. Within HESSENTIA’s world, it is a sophisticated, textured variant of the iconic Miller, combining marble, metal and contemporary Handmade in Italy sensitivity.
