

A unique and refined design with generous and rounded shapes characterizes Enigma writing desk. The volumes overlapped in an unconventional way are inspired by the “deconstructivist architecture” of the late eighties of the last century. This product has a peculiar but at the same time functional aesthetic, thanks to a leather top that recalls the shapes of the base and to the presence of two “hidden drawers” apparently invisible from the outside. White and black wood veneer alternates in an irregular way. The Matrix finish of writing desk Enigma is available in matt or shiny version.
