Nova

BENCH

Generated: 04/11/2026

Nova bench is an upholstered seat designed to complete the bedroom through rounded forms, tailored embroidery and a recognisable metal structure. It belongs to Nova collection, which includes coordinated beds, night tables, vanity desks and coffee tables.

The seat has a soft, continuous profile. Embroidery enriches the surface and highlights the volume, introducing tactile depth and tailoring precision.

The seat is supported by a sophisticated structure composed of several metal rings, some of which are decorated with an artisanal frosted finish.

Nova is available in leather or fabric and it is suitable to be placed at the foot of a bed, in a walk-in closet or elsewhere in the sleeping area. It can be coordinated with other elements in Nova collection.

Handmade in Italy, Nova interprets the furnishing accessory through comfort, embroidery and design continuity.
