Meraki

COFFEE TABLE

Meraki adopts the organic shapes of the table collection of the same name, translating them into more compact volumes with a sense of harmony, ideal for living areas. The amorphous marble top enhances the natural material, revealing veining, colours and depth.

Two mirrored fiberglass legs introduce an artistic, contemporary presence that engages with marble through colour, texture and proportion. Handcrafted fiberglass gives each element subtle variations, changing the appearance of the product.

Meraki coffee tables are available in three fiberglass and marble combinations for an elegant colour effect: ivory fiberglass with matt Calacatta Oro marble; Amazonia fiberglass with textured Amazzonia Quartzite; and slate-effect fiberglass with textured Noir Grand Antique marble.

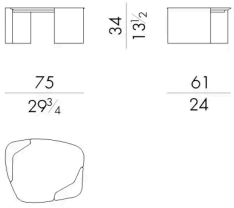

Meraki can be used individually or with other elements in the collection. Within HESSENTIA's world, marble, fiberglass and design sensitivity create a distinctive balance in this refined, sculptural coffee table.
