Axon

COFFEE TABLE

Available in different sizes and heights, the version of Axon made of artistic metal casting expresses metal as a lively material shaped by a manual process that creates distinctive, unique surfaces. Its simple shape enhances the strength of the craftsmanship, revealing depth, reflections and subtle irregularities.

Artistic casting gives the table a compact, sculptural presence in which metal expresses the relationship between handwork, material and time. Patinated finishes enhance the surface, changing the appearance of the piece according to light and viewing angle.

Within HESSENTIA's world, Axon is a discreet coffee table with a strong identity, combining functionality, hand-crafted metal and Handmade in Italy artistic sensitivity..

If the product is intended for **outdoor use**, it should be used exclusively in covered outdoor spaces protected from weather agents, such as verandas, porches, and covered terraces.
To preserve the aesthetic, functional, and material qualities of the products over time, weekly routine maintenance is highly recommended.
Furthermore, any food and drink residues, leaves, flowers, pollen, or bird droppings should be removed promptly to prevent prolonged contact with the surfaces from compromising the long-term preservation of the products.
