Lineup

COFFEE TABLE

Lineup coffee table with artistic resin top interprets the dialogue between geometric rigour and a decorative surface. The linear metal structure retains the collection’s distinctive motif, enhanced by hand engraving inspired by the sensitivity of Italian high jewellery.

The minimal base design contrasts with a top whose decorative finish consisting in resins, coloured pigments and natural powders. This artistic top introduces visual depth, colour variations and a more artistic material quality, giving each coffee table a different look and light reflection.

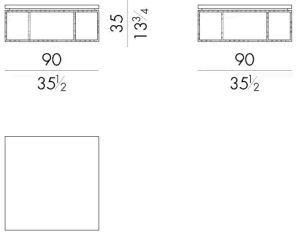

Available in different sizes, Lineup can stand individually or alongside other tables in the collection. Within HESSENTIA’s world, the resin-top version is an expressive, contemporary coffee table in which engraved metal, colour and material engage in balance.
