Ovoo

TABLE

Ovoo is a HESSENTIA table inspired by Mongolia's ritual landscapes and the ancient tradition of stone cairns, built on mountain peaks as symbolic markers and points of reference. This image inspired a composition of overlapping shapes, material balances and a dialogue between marble, wood and artistic brass casting elements with a patinated finish.

The amorphous marble top introduces a natural, striking and unique surface whose veining and colours give each piece a different appearance. Wooden legs add warmth and material continuity, while artistic brass casting elements enhanced by a patinated finish create a deep, handcrafted accent.

This version of Ovoo balances mineral strength, the presence of wood and the textured detail of casting. The result is a contemporary table with a sophisticated character, expressing material through restrained contrasts, natural surfaces and the uniqueness of each piece.

HESSENTIA can customize this piece to suit your project needs. Some limitations apply.
