Otto

COFFEE TABLE

Otto coffee table adopts the sculptural character of the HESSENTIA table of the same name, translating it into a more compact, versatile shape for the living area. The metal base is composed of one or two hand-engraved bowls that create a three-dimensional, vibrant surface rich in reflections.

The marble top represents a natural, refined presence, balancing the expressive strength of the base. Marble and handcrafted metal engage through light, texture and proportion, creating a coffee table with a strong decorative identity.

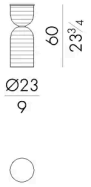

Available in different sizes and heights, Otto can be used individually or with other elements in the collection for dynamic, personal living compositions. Within HESSENTIA's design language, it combines artistic craftsmanship, material presence and contemporary Handmade in Italy design in a sculptural, sophisticated coffee table.
