Dulcis

BED

Generated: 22/11/2026

Dulcis is a contemporary upholstered bed characterized by three-dimensional horizontal stripe embroidery wrapping the headboard. The design places tailoring craftsmanship at the centre, making the upholstery its primary expressive element.

The horizontal lines run across the headboard. The regular rhythm of the embroidery creates depth, variations of light and an ordered visual perception that balances the softness of the upholstery.

The embroidery does not represent a simple decoration but contributes to shaping the structure. The horizontal bands reinforce continuity between the headboard and bed frame and make the product recognizable from different angles.

Dulcis bed is available upholstered in leather or fabric. Leather makes the pattern of the embroidery more defined, while fabric emphasizes the softness and tactile character of the surface.

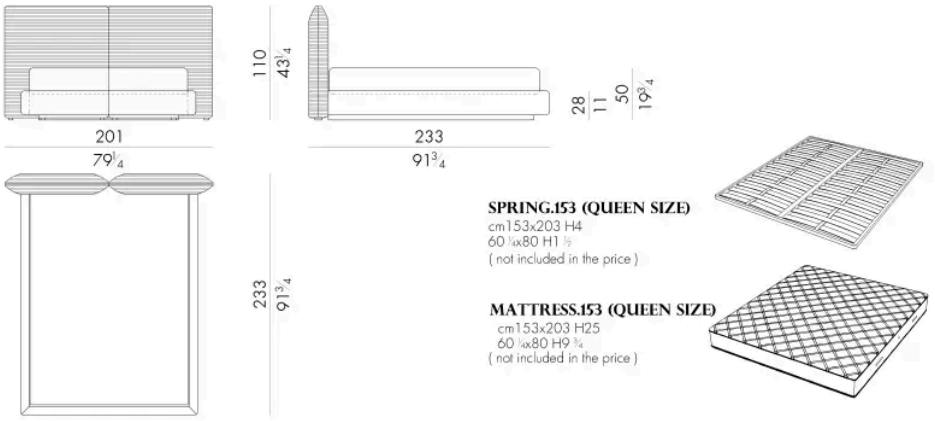

Its proportions make the bed suitable both for spacious bedrooms and for interiors where a strong yet clearly defined presence is desired. It can be coordinated with independent night tables and accessories.

Handmade in Italy, Dulcis interprets contemporary bedroom design through three-dimensional embroidery, comfort and manufacturing precision.
