

Lowell

DIVANO COMPOSIZIONE

Lowell è un divano modulare composto da pochi elementi ma capace di creare suggestioni uniche attraverso infinite forme geometriche. Maestoso quando posizionato a parete, completo nelle sue funzioni quando collocato a centro locale, è sempre desideroso di abbinarsi ai tavolini della collezione Luke disegnati per esaltare ancora di più le sue forme tondeggianti. Da qualunque angolazione lo osservi appare sempre arrotondato pur essendo stato progettato e disegnato con una forma quadrata.
