

La collezione di divani modulari Rubik rappresenta un perfetto equilibrio tra un insieme di volumi squadrati sostenuti da una base in metallo che li tiene rialzati da terra conferendo ad ogni composizione un senso di leggerezza. L'aspetto decorativo di questo divano modulare è ben visibile grazie alle numerose cuciture orizzontali e verticali realizzate con la tecnica del "ricamo a cordonetto" applicata a tutti i volumi che compongono la struttura esterna. Il gusto sobrio e ricercato lo rende un alleato versatile di qualsiasi tavolino abbinato a completamento della zona living. Il divano modulare Rubik è disponibile in un'ampia varietà di moduli che possono essere combinati tra loro per creare divani dalle forme sempre diverse anche se ogni singolo modulo può essere utilizzato singolarmente. Può essere rivestito in pelle o tessuto.
