

Ispirato al design dei leggendari anni '70, il divano componibile Denver è un'aggregazione di volumi, la cui forma è ben visibile lateralmente. Ogni modulo si compone di due elementi: il corpo principale dalla forma piena che appoggia a terra e il cuscino della seduta appoggiato all'interno della struttura stessa. Ogni modulo è disponibile in pelle o tessuto. Tre elementi, diversi in larghezza e profondità, permettono di realizzare una serie innumerevole di composizioni in termini di dimensione e comfort di seduta.

Dimensioni

DENVER . 88 . 112

Elemento modulare

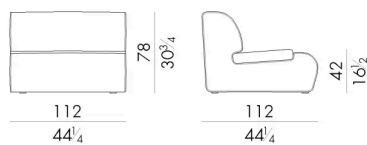

88 L x 112 P x 78 H cm

DENVER . 112 . 112

Elemento modulare

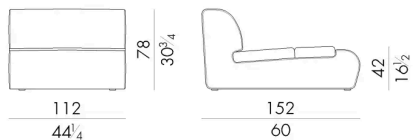

112 L x 112 P x 78 H cm

DENVER . 112 . 145

Elemento modulare

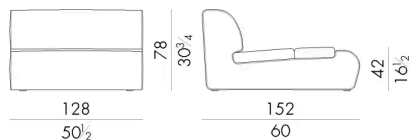

112 L x 152 P x 78 H cm

DENVER . 128 . 145

Elemento modulare

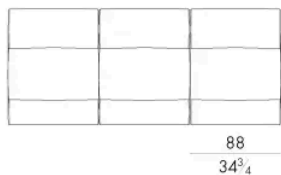

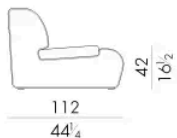

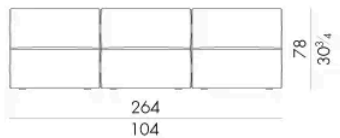

128 L x 152 P x 78 H cm
