

Cadrega is 2024 design week's EXPERIENTIA activity's undisputed star, a tribute to Milan. Cadrega is a minimalist design, completely cast in bronze. Its surface is characterized by the multi-colored effect created by visible welding, through visual and tactile contrast games, highlighting the chair's modern beauty. Cadrega's artistic casting process combines ancient sand casting and new design language. In fact, even today, we still use complex manual craftsmanship to shape materials, transforming raw materials into unique works of art.
